The MasoniCh.I.P (Child ID Program) is provided exclusively by dedicated Freemasons

FREE OF CHARGE

It consists of five major components – vital child information, digital fingerprints, digital photographs, digital video and a dental bite impression or Intra Oral Swab for DNA.

All data are burned onto a CD, and given to the parent(s) or guardian(s).

Security and privacy are of the utmost importance; therefore, with the exception of a permission form signed by the parent,

NOTHING IS KEPT ON FILE

It is our sincerest hope that no family will need to use the resource provided by this service but, if the need should arise, we are convinced that the information contained in these ID Kits will assist law enforcement agencies in the recovery of missing children. It only takes a few minutes from the time the CD-ROM is loaded into a Police computer for the **AMBER ALERT** broadcast to be sent throughout NORTH AMERICA.
